

## Devotions for Children, tweens, and teens by Karen Whiting

Read the descriptions and click on the titles to order any of the books that interest you. Orders are processed by SquareUp.

### **The One Year My Princess Devotions**

Young girls discover that as children of our heavenly king, they are real princesses. They can read, understand, and put God's Word into action every day. The book focuses on a virtue, as well as physical development of a body part, every month.

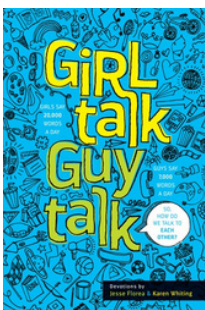

### **Devos for Brave Boys**

Sixty devotions written just for boys to engage them with humor, truth, and fascinating facts. This is a great introduction to devotions. Each one is paired to an activity (jokes, secret codes, hands on fun, tongue twisters, and more) to engage boys and get them living their faith.

### **The One Year Devotions for Active Boys**

A much longer version of daily devotions for boys shares a great read for every day of the year, plus an activity (jokes, secret codes, hands on fun, tongue twisters, and more). A self-assessment called a check-off list helps boys evaluate how they are doing in one area in each week (spiritual, physical, character, and life skills).

### **Girl Talk Guy Talk**

As girls and boys mature they need to build their communication skills and ability to relate to the opposite sex, friends, and even adults. These topical devotions on communication skills are written to a girl's and then a boy's perspective so they can understand and relate to their individual differences better.

### **Stories of Faith and Courage from the Home Front**

We learn from stories. This book focuses on the faith and courage of women, families, and children during American war times from 1755 to 2012. The true stories from original sources, with many original quotes, show youth how people have lived their faith. It's great to read Women's American history and see how family members helped one another in difficult times.
